CASE STUDY!

Its always a great feeling to speak about our amazing Clients.

Our previous works are our business cards for our new clients.

“ Richesd is the most amazing company, I am not only a United States Presidential Candidate but a business owner in Oklahoma. When I decided to run and needed a campaign site up, Richesd had me up and running in two days. I feel comfortable enough that I have turned my whole business sites over to Richesd and never a doubt that they do what is in my best interest. You will not only find this is the best company out there but they also treat you like family. Hats off to you Richesd for everything you have done and continue to do for me.

- Joseph Maldonado, US Presidential Candidate 2016, Owner of The Greater Wynnewood Development Group LLC & A Big Cat Institute College

Our client, **Joseph Maldonado** was the US Presidential Candidate in 2016. At present he is running for the position of Governor of The State of Oklahoma. Later he is again running for the US President position in the year 2020 from the Libertarian Party.

We have taken up all his campaign activities from the April 2015 along with his 27 business websites.

Launching : iOS & Android apps

We run their campaigns by keeping their websites live & highly interactive allowing every person to experience the country man. Every day campaign videos & photos are published on websites & their social pages. The same are sent to various media networks like TV channels, radios & news papers. We also tie up with other media organisations with whom we schedule timely interviews.

The Client & the story, worthwhile. In April 2015, we found an Ad in the US craigslist, communicated & sent our team member to work at their location. They had 27 websites that were far from reality & relevant. We suggested website templates that could replace their old designs. The whole committee was flabbergasted. Today their sites are reduced to 7 'only'. Their online revenues shoot from few 100s to \$50,000 a month.
